## GLADIOLI

### FOR FORCING AND OUTDOOR PLANTING

Gladiolus Bulbs grown on our rich, sandy soils produce high-crowned, vigorous stock from which highest results may be expected.

Varieties marked with a (\*) are good for forcing. Use only First size bulbs for forcing. Plant after January 15th. For cold frame planting use either first or second size bulbs.

Terms: 100 bulbs of one variety at per 1,000 rate.

3% for cash with order; 2% in ten days; net 30 days.

		PRICE PER 1,000

<hr/>		
IRIS DICHOTOMA. (Vesper Iris) Rare novelty. Fragrant flower on tall branching sprays. All colors.....	1.75	12.00

# **BUXUS SEMPERVIRENS WELLERI**

A FIELD OF THREE-YEAR-OLD WELLERI

## **BOXWOOD—Weller's Hardy Northern Type**

**BUXUS SEMPERVIRENS WELLERI**

Hardest Boxwood on the market.

Dear Customer:

Because of the handicaps of the War, we have been unable to keep up our planting of this wonderful Boxwood. The demand has grown by leaps and bounds, with the result that we are temporarily out of material for landscape work.

We can offer a limited quantity of lining out stock for growing on. For Fall 1949 and Spring 1950 we expect to have a fine supply of 6-8 inches for hedging and a lighter grade of 5-7 inches for edging or growing on.

For the present we offer:

**BUXUS SEMPERVIRENS WELLERI (Weller's Hardy Northern Type) (Bare roots)**

	per 25	per 100
Once transplanted, for growing on.....	\$5.00	\$15.00
